

## Installation and Configuration Services

# Installation and Configuration Services

## ACCELERATE TIME TO VALUE FOR REMOTE SUPPORT

Bomgar's Installation and Configuration Services help drive efficiency, productivity, security and faster return on investment from your Bomgar solution. Our Bomgar certified installation consultants will assist in each phase of a successful installation—from initial assessment, to security, configuration and an audit to accelerate the time to value of your remote support solution.

Whether performed on-site or remotely, our installation and configuration experts work directly with your team to define and configure the Bomgar solution quickly and without interrupting your business operations. This expert service also assures optimum, secure performance of the Bomgar solution in your environment.

## KEY BENEFITS

- Maximizes workflows and helps achieve best practices for remote IT support, with particular focus on team structure, security policy and customer service
- Optimizes Bomgar solution configurations to meet rigorous security requirements
- Speeds and enhances return on investment from the Bomgar remote support platform
- Frees your internal staff to focus on other pressing initiatives
- Demonstrates how your Bomgar solution works and how to maintain an optimum, secure configuration
