

Start a Remote Support Session

With Your Free Bomgar Trial

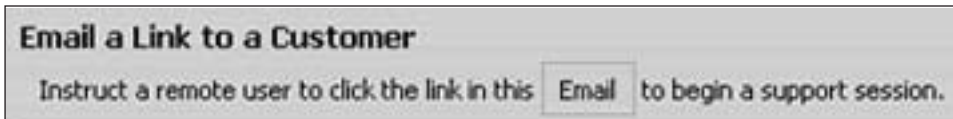

After you've logged into your 7-Day Bomgar Trial, starting a session with a remote computer is just 5 clicks away:

1 Log into Bomgar

2 Click the Start Button

3 Click the Email URL button. Your email client will be opened with an email to send to the remote user

4 Click the remote user's session in your personal queue to join

5 Click start screen sharing to request to view/control the remote user's screen
